PROFESSIONAL SUMMARY

Detail-oriented Computer Science undergraduate with strong analytical, problem-solving, and organizational skills. Proficient in Microsoft Excel, Google Sheets, Python, and data analysis with the ability to manage, organize, and interpret operational data. A quick learner and collaborative team player eager to contribute to operations, supply chain coordination, and business processes while gaining practical industry experience in a fast-paced environment.

KEY EXPERTISE

Web Development front end web development python Data Analytics BIG DATA DBMS Data Analysis
Microsoft Excel Excel Google sheet Supply Chain Detail-Oriented Ai Data entry M MS Office SQL
Communication Reporting Data management Google sheets process management Team Coordination
Team collaboration

EDUCATION

RV University B.Tech. - CSE - Artificial Intelligence and Machine Learning CGPA: 7.88 / 10	2023 - 2027
NARAYANA JR COLLEGE ARAVINDHA NAGAR, Nellore 12 th BIEAP Percentage: 90.40 / 100	2023
NARAYANA HIGH SCHOOL RAMALINGAPURAM , NELLORE DISTRICT, Nellore 10 th BOARD OF SECONDAY EDUCATION Percentage: 98.16 / 100	2021

INTERNSHIPS

Dhee data center Cyber Security Cybersecurity intern Key Skills: machine learning data science Cyber-security python Developed a Machine Learning-based Malware Detection System to identify and classify malicious files and potential cyber threats. The project involved collecting malware and benign software datasets, extracting static features such as file size, API calls, permissions, and executable characteristics using Python, and performing data preprocessing and feature engineering. Trained and evaluated machine learning models including Random Forest, Support Vector Machine (SVM), and XGBoost to distinguish between malicious and legitimate files with high accuracy. Applied data analysis techniques to identify threat patterns, reduce false positives, and improve detection efficiency. Generated visual reports and performance metrics to assess model effectiveness and support proactive cybersecurity measures.	01 Jun, 2024 - 30 Jul, 2024

PROJECTS

NoCodeML

Team Size: 3

Key Skills:

data science python machine learning frontend web development TypeScript SQL FastAPI
REST API Development Backend Development Server-side Programming React JavaScript Responsiveness
Responsive UI Development PostgreSQL Relational Database Management Data Preprocessing Data Analysis
Docker Celery Full Stack Development Software Architecture

Project Link: <https://github.com/ojas-ba/NoCodeML>

NoCodeML – No-Code Machine Learning Platform | FastAPI, React, TypeScript, PostgreSQL, Celery, Redis, Docker

- Built a full-stack ML experimentation platform where users upload CSV datasets, inspect data quality, configure classification and regression experiments, train models, compare metrics, and generate batch predictions entirely from the browser.
- Designed database-backed experiment workflows with FastAPI and PostgreSQL, persisting dataset metadata, model configuration, training status, evaluation metrics, feature importance, and prediction outputs.
- Implemented Celery + Redis workers to run long model-training jobs across Linear/Logistic Regression, Random Forest, XGBoost, and LightGBM, validated on Kaggle datasets with 100K+ rows.

AI MUSIC GENERATOR

Team Size: 3

Key Skills: machine learning ai python frontend

from the user input we generate custom music using machine learning, so that they can use non copyright music

Neural Style Transfer For Visual Data

Mentor: prof.jeetu | Team Size: 4

Key Skills: deep learning machine learning python web development ai

Project Link: <https://github.com/NithinS74/Neural-Style-Transfer-for-Visual-Data>

with the image input from the user ,we read and modify the image into a lot more custom styles using deep learning and AI

OPEN-VR project

Team Size: 4

Key Skills: embedding systems hardware python machine learning Body tracking

Project Link: <https://github.com/NithinS74/openvr-practice>

using IR sensors we built a body tracking device for open-VR systems

PUBLICATIONS / RESEARCH / WHITE PAPERS

NeuralStyleTransfer

Key Skills: Deep learning machine learning AI python

using deep learning , we built a system where we take the input and we can modify the images using custom styles

ASSESSMENTS / CERTIFICATIONS

IBM Spark Fundamentals

Provider: IBM

IBM HADOOP 101

Provider: IBM

affective computing

Provider: NPTEL

Design & Implementation of Human-Computer Interfaces

Provider: NPTEL

IBM BIG DATA CERTIFICATE

Provider: IBM

EXTRA CURRICULAR ACTIVITIES

- o Hackathons
- o Sports
- o Conducting events in college
- o Technical Workshops & Seminars
- o Professional Development Workshops
- o Industry Workshops & Seminars

PERSONAL DETAILS

Current Address: Krishna Global Villaments, 2nd floor door no 202, RR nagar, Bengaluru, Karnataka, India - 560098

Date of Birth: 15 Jul, 2005

Known Languages: English, Hindi, Telugu, Kannada, Tamil

Permanent Address: Sri Krishna Residency, door no B1, Nellore, Andhra Pradesh, India - 524001

Phone Numbers: +91-9059076106, +91-9059076106

Emails: munnalurir.btech23@rvu.edu.in, rishikeshjonin@gmail.com
